## 3. The town's growth and development

Willow Creek grew rapidly in the years after its founding. By 1860, the town had a population of over 1,000 people. The town's economy was based on gold mining, agriculture, and logging.

In the late 19th century, Willow Creek became a major railroad hub. The town was on the main line of the Southern Pacific Railroad, and it was also the terminus of the Yosemite Valley Railroad. The railroad brought new people and new businesses to Willow Creek, and it helped to make the town a major economic center.

In the early 20th century, Willow Creek continued to grow. The town's population reached 2,000 people by 1920. The town's economy was still based on mining, agriculture, and logging, but it was also becoming a popular tourist destination.

The Great Depression hit Willow Creek hard. The town's population declined, and many businesses closed. However, the town began to recover in the 1940s. The construction of the Friant Dam brought new jobs to the area, and the town's economy began to grow again.

In the postwar years, Willow Creek continued to grow. The town's population reached 3,000 people by 1960. The town's economy was now based on a variety of industries, including tourism, agriculture, and manufacturing.

Today, Willow Creek is a thriving community with a population of over 4,000 people. The town's economy is still based on a variety of industries, and it is a popular tourist destination. Willow Creek is a great place to live, work, and raise a family.
